From

To

The Secretary to the Government of Bengal
General and Revenue Department.

Sir,

With reference to Government Proceedings No. 1M-11-15-Misc-VI dated 25th January 1897, requesting the submission of a report on the areas ascertained during the years 1895-96 and 1896-97, regarding the quantities of Kharanja Seers enjoyed and locally assumed, I have the honour to state that from the reports of the several Amins of the District it is clear that the quantity of the mineral collected in the District is very small and that no assessment is levied which as shown in the annexed statement. It seems, also, that the contractors who purchase the right of collecting the mineral in their tahsils, either did not think it worth their while to collect the mineral when they attempted to collect it, or else, supplied it readily found that it did not pay them to do so. I may therefore, of opinion that the existing system of selling the right of collection may be continued for the present in this District.

SIR,

I have the honor to state that the sale of the right to collect kurunga or shell stones in the several taluks of the District (exclusive of the French Rocks sub-division) during the year 1898–99 was after due publication held at the District office on the 17th instant before the 1st Assistant Commissioner Mr. M. The number of bidders was exceedingly small and the competition far from keen a circumstance due probably to there being hardly any local demand for the stone and to the paucity of persons accustomed to the trade and acquainted with the realizable value of the article in the foreign market. Under these circumstances, I request that the sale may be confirmed to enable this office to forward the collection
